When Dairy Meets the Law

DOMINA LAW Group's specific dairy and dairy related litigation includes trials and arbitration proceedings, in these states:

New Mexico, Texas, Utah, Idaho, South Dakota, Nebraska, Missouri, Iowa, Minnesota, Michigan, Indiana, New York, West Virginia

Both jury verdicts and appellate decisions involving dairy issues are in the firm's background. Its experience with dairy issues includes:

- Adulterated feed
- Fraud concerning animals, including both financial fraud and misrepresentations
- Gestation and breeding issues
- Lactation curve
- Market Distortion, Manipulation, and Antitrust claims
- Mastitis
- Professional Negligence
- Stray voltage
- Toxicity from multiple causes
- Vaccines and vaccination impurities and adverse reactions

The Challenge

Modern dairying presents many challenges. Genetics, nutrition, health, markets, equipment. Each poses risks. Each can lead to court.

Informed Lawyers

Sometimes, dairy problems lead to the courtroom. Then, the dairy farmer needs lawyers who know steers from heifers and lawyers who know:

- Acidosis
- Aflatoxins
- AI (Artificial Insemination)
- BVD (Bovine Viral Diarrhea)
- DA (Displaced Abomasum)
- DHI Records (Dairy Herd Improvement)
- Lactation Curve
- Mastitis
- Milk Protein Inversions
- Mycotoxins
- SCC (Somatic Cell Count)
- Stray Voltage
- Staph Aureus
- Zearalanone

Examples of Dairy Issues:

Milking machine problems require attention. **DOMINA LAW Group** lawyers have been engaged to address major losses at dairies caused by improperly functions milking machines in Midwest and Southwest.

Improper Nutrition can cause huge losses. Herdwide **acidosis** is one example. **DOMINA LAW Group** has handled dozens of dairy nutrition cases in the Midwest, Northeast, and most recently in the Southwestern U.S. Click [here](#) to learn more.

Stray voltage, and engineering problems can cause losses. Building design and related causes have led to our involvement in many dairy lawsuits.

New Guide for Dairy Farmers in Difficult Times Available

The Farmers Legal Action Group, a Minnesota advocacy group for producers, issued a new pamphlet called *Tools for Dairy Farmers in Tough Economic Times*. The 16 page brochure is a thoughtful and effective guide to economic emergency disaster assistance programs, credit access, loan restructuring issues, and bankruptcy concerns. The guide also deals with milk check assignments, and touches on reform in the dairy industry.

Producers are urged to stay abreast of these issues. Flag's guide, which may be read [here](#), is valuable.
